

FEDERAL CAPABILITIES

At Group14, we provide cost-effective solutions to help federal agencies achieve energy and sustainability requirements, delivering measurable results and enhancing resilience. With experience across 90+ federal projects, we specialize in reducing energy use, cutting costs, and lowering carbon impact. Our tailored approach improves building performance, ensures compliance, and supports long-term resilience.

KEY DIFFERENTIATORS

Federal Compliance

We ensure facilities meet federal energy and sustainability mandates.

Energy Solutions

Using tools like SkySpark, we optimize efficiency, reduce costs, and enhance performance.

Zero-Carbon Design

We collaborate with designers to create all-electric, zero-energy buildings aligned with federal climate goals.
